SUMMARY

A Third-year IT student with a strong foundation in Data Structures and Algorithms (DSA) and hands-on experience in Web Development. Skilled in designing and developing scalable applications using modern web technologies. Passionate about problem-solving, optimizing algorithms, and building efficient software solutions. Eager to leverage technical expertise in a dynamic and growth-oriented environment.

Education

Maharaja Agrasen Institute of Technology   *Nov 2022 - July 2026*
Bachelor of Technology in Information Technology
- CGPA: 9.16

Gobindgarh Public School   *2020-2021*
CBSE(Class XII)
- Percentage: 95.6%

Gobindgarh Public School   *2018-2019*
CBSE(Class X)
- Percentage: 93%

Projects

E-Sports Website   *Website* ⬈
Tech Used-Bootstrap,HTML,css,React
- Developed an esports website with React, HTML, and CSS, delivering dynamic user interactions and a polished UI across devices.
- Implemented Routing using React components, enhancing user engagement and platform functionality.
- Deployed the esports website on Netlify, ensuring seamless accessibility and efficient hosting.

PAJAV Website   *Website* ⬈
Tech Used-Tailwind,Javascript,css,React
- Developed a responsive and modern website, Pajav, using React, Tailwind CSS, and JavaScript, focusing on a clean and engaging user experience.
- Implemented interactive elements and dynamic content updates with React, enhancing user engagement and site functionality.
- Deployed and maintain Pajav on Netlify, ensuring site availability and efficient content delivery across devices.

Expense Tracker Website   *Github* ⬈
Tech Used-React,Node,Express,MongoDB,Context API
- A personal finance management app to add, view, and categorize daily expenses and income.
- Implemented state management with React Context API to handle transactions dynamically
- Built CRUD operations for income and expense tracking with real-time UI updates

Technologies

Skills: Data Structures, Alogrithms, Full-stack Web development
Languages: C/C++, JavaScript, SQL, Python, HTML/CSS
Databases: MongoDB, PostgreSQL
Frameworks: Tailwind, Bootstrap, Node.js, Next.js
Developer Tools: Git, VS Code
Libraries: React, Express, Mongoose
Operating Systems: Windows, MacOS, Linux
